

List of Vehicles

We would remind you that under the terms of the Fourth EU Motor Insurance Directive and the associated UK legislation you are legally required to provide the registration numbers of all vehicles and trade plates owned by you or in your custody or control and which are to be insured under your policy, for submission to the Motor Insurance Database (MID). You are also required to advise immediately, the date on which cover begins for each vehicle and the date on which cover ceases when a vehicle is sold or disposed of.

Please provide details of such vehicles to us **immediately** cover is required for any vehicle to be insured and promptly advise us when vehicles are sold or disposed of

Failure to disclose such registration numbers may invalidate the cover provided by your policy or result in a claim being rejected

NB Immediate notification of your insured vehicles to MID reduces the risk of you or your drivers being stopped and vehicles seized by the police who may believe no insurance is in force if vehicles have not been notified.
